

# MEMBERSHIP PRICES

We believe in providing you with the best training experience possible, and part of that is ensuring transparency with our pricing. Once you join our Ninja family, your tuition will never increase as long as you remain an active student. However, if you decide to take a break from training, when you return, the tuition will be adjusted to the current rate at that time. This helps us maintain the quality of our classes and continue offering you the best training environment.
